
Focus Letter Pattern: BL

Lesson Difficulty Level: 3

There are approximately 4000 words in the English language containing the letters BL.

STEP 1: Using hints, work with your students to generate the following words and fill in the word work matrix. Be sure to define each word and use it in a sentence as you write it in the word-work matrix

1. BLUE
2. BLACK
3. BLANK
4. BLAST
5. BLESS
6. BLINK
7. BLIND
8. BLOOM
9. BLUSH
10. BLUFF
11. BLONDE
12. BLOOD

STEP 2: When the word-work matrix is completed, have the students chant the words aloud 3 or 4 times to build rapid and proper pronunciation.

STEP 3: Quickly call out words at random, and have the students tell you what cell each word is in. For example, if you say BLUFF, the students should tell you it's in box 10. Or if you say BLINK, the students should say it is in box 6.

STEP 4: Read the following sentences aloud and have the students figure out what word belongs in the blank space:

Amy fell and cut her knee. There was _____ running down her leg.

If you can not see, you are _____.

To keep your eyes from getting dry, you _____.

Yellow hair is described as _____.

In the spring, the roses begin to _____.

STEP 5: In the spaces below the word-work matrix, have students generate other words that contain the letters BL. To make it more interesting, tell them you will be very impressed with students who come up with really unusual and sophisticated vocabulary words. See if the students come up with words like BLANK, or BLOB. If they can't encourage them to simply modify one of the words you have already discussed with a prefix or a suffix, or think of a compound word that contains one of the words from today's lesson.

STEP 6: Have the students generate an original sentence correctly using at least two of the words from the lesson.

Student Word-Work Worksheet

NAME: _____ FOCUS LETTERS: _____

1.	2.	3.
4.	5.	6.
7.	8.	9.
10.	11.	12.

Write your OWN words that contain the letters _____:

Write a **grammatically correct** sentence using at least TWO of the words from the matrix above.
