
Focus Letter Pattern: ILL

Lesson Difficulty Level: 3

There are approximately 1700 words in the English language containing the letters ILL.

STEP 1: Using hints, work with your students to generate the following words and fill in the word work matrix. Be sure to define each word and use it in a sentence as you write it in the word-work matrix

1. ILL
2. BILL
3. WILL
4. PILL
5. SPILL
6. STILL
7. HILL
8. CHILL
9. THRILL
10. PILLOW
11. WILLOW
12. VILLAGE

STEP 2: When the word-work matrix is completed, have the students chant the words aloud 3 or 4 times to build rapid and proper pronunciation.

STEP 3: Quickly call out words at random, and have the students tell you what cell each word is in. For example, if you say PILLOW, the students should tell you it's in box 10. Or if you say STILL, the students should say it is in box 6.

STEP 4: Read the following sentences aloud and have the students figure out what word belongs in the blank space:

- I love roller coasters; they are such a _____.
- I'm going to put these grapes in the refrigerator so they can _____.
- There was no wind, and everything in the forest was quite _____.
- We walked along the mountain path until we came to a quaint little _____.
- In my wallet, I have a 20 dollar _____.

STEP 5: In the spaces below the word-work matrix, have students generate other words that contain the letters ILL. To make it more interesting, tell them you will be very impressed with students who come up with really unusual and sophisticated vocabulary words. See if the students come up with words like ARMADILLO, or PILLAR. If they can't, encourage them to simply modify one of the words you have already discussed with a prefix or a suffix, or think of a compound word that contains one of the words from today's lesson.

STEP 6: Have the students generate an original sentence correctly using at least two of the words from the lesson.
