
Focus Letter Pattern: STR

Lesson Difficulty Level: 4

There are approximately 2000 words in the English language containing the letters STR.

STEP 1: Using hints, work with your students to generate the following words and fill in the word work matrix. Be sure to define each word and use it in a sentence as you write it in the word-work matrix

1. STRAW
2. STRAP
3. STRUT
4. STRAY
5. PASTRY
6. STRAIN
7. STRONG
8. STREAM
9. STRESS
10. STRETCH
11. STRIKE
12. OSTRICH

STEP 2: When the word-work matrix is completed, have the students chant the words aloud 3 or 4 times to build rapid and proper pronunciation.

STEP 3: Quickly call out words at random, and have the students tell you what cell each word is in. For example, if you say STRETCH, the students should tell you it's in box 10. Or if you say STRAIN, the students should say it is in box 6.

STEP 4: Read the following sentences aloud and have the students figure out what word belongs in the blank space:

- I like to drink milk through a _____.
- I can reach the top shelf if I really _____.
- I went for a walk in the country and found crystal clear _____ to swim in.
- The biggest bird in the world is the _____.
- I love to eat _____ for breakfast.

STEP 5: In the spaces below the word-work matrix, have students generate other words that contain the letters STR. To make it more interesting, tell them you will be very impressed with students who come up with really unusual and sophisticated vocabulary words. See if the students come up with words like DESTROY or ASTRONAUT. If they can't, encourage them to simply modify one of the words you have already discussed with a prefix or a suffix or think of a compound word that contains one of the words from today's lesson.

STEP 6: Have the students generate an original sentence correctly using at least two of the words from the lesson.
